Education

Thapar Institute of Engineering and Technology

Sept 2023 – May 2027

Btech in Electronics and Communication Engineering

- CGPA: 8.73
- **Coursework:** Python, IOT, Computer Architecture, Algorithms, Statistics, Database Management Systems

Projects/Experience

Data Analyst Intern – Wibix Consulting, Gurgaon

June 2025 – July 2025

- Processed and validated 100K–150K records across 5+ internal and external sources, reducing data inconsistencies by 25–30
- Delivered insights from large-scale structured and unstructured data, uncovering actionable patterns that influenced 3+ business decisions.

Music Recommendation System

- Built a content-based music recommendation system in Python, processing 10K+ songs and extracting 15+ audio/metadata features to generate personalized recommendations.
- Implemented similarity algorithms (e.g., cosine similarity) to deliver Top-10 song recommendations with 85%+ relevance accuracy based on user preferences.
- Reduced manual song discovery effort by 40% through automated preference-based filtering.

AI-Powered Fashion Fit Rating System

- Built an end-to-end computer vision system using PyTorch and ResNet-18, training on 5,000+ fashion images to predict outfit fit scores on a 1–100 scale
- Designed a custom dataset loader to train directly from compressed ZIP archives, reducing data I/O overhead and improving pipeline efficiency by 30%.
- Built an inference pipeline to generate real-time fit ratings for unseen images, achieving consistent predictions across 90%+ validation samples..

Positions of Responsibility

Sales Head-Aiesec in Patiala

- Drove outreach campaigns engaging 200+ students, contributing to a 30% increase in new member sign-ups.
- Served on the organizing committee for the society fair, coordinating 5+ teams and managing event logistics for 1500+ attendees.

IGTE Team Member

- Supported global exchange programs, assisting in the coordination of 20+ international exchange applications across multiple regions.
- Collaborated with cross-functional teams to facilitate end-to-end exchange processes, improving response turnaround time by 25%.

Technical Skills and Tools

Programming: C++, C, Python, JavaScript, HTML, CSS

Data & ML: Exploratory Data Analytics (EDA), Statistical Analysis, Regression, Classification, Clustering, Feature Engineering, Machine Learning, Deep Learning

Libraries/Tools: SQL, NumPy, Pandas, Scikit-learn, TensorFlow, PyTorch, Jupyter, Google Colab, MS Excel/PowerPoint, Power BI

Other: Unity, Arduino
